# **BOARD AGENDA STAFF REPORT - 01**

то:	Board of Directors
FROM:	Tim Nurge, Operations Manager
DATE:	November 19, 2024
DESCRIPTION:	Modified Purchase Agreement for Unit-23

# RECOMMENDATION

Review and approve RedSky Emergency Vehicles' modified purchase agreement dated October 29, 2024.

# FISCAL IMPACT

Decrease the required financing for the new ambulance unit by \$72,220.

# DISCUSSION

Upon further review of the original RedSky Emergency Vehicle purchase agreement, Operations Manager Nurge identified equipment that is not required for the new unit and has successfully negotiated a decrease to the cost of Unit-23. Below is a review of the previously Board-approved budget item for Unit-23 and an updated budget based on the modified agreement presented for consideration.

1. In February 2023, the Board of Directors approved purchasing through RedSky Emergency Vehicles, a Ford E350 type III Ambulance, including a Stryker Power Load System with a gurney.

# Unit-23 as included in the approved 2024-25 Budget:

Purchase Price (purchase agreement 2-23-2023)	\$283,000
CCHD 501-C3Trust: Community Donations	(45,000)
Cambria Community Council Grant	(23,800)
Finance Remaining Balance	\$214,200

2. Cost adjustments made to the purchase agreement include eliminating duplicate equipment such as a Stryker Power Load System with a gurney and a ceiling 02 outlet. Operations Manager Nurge negotiated a decrease in delivery charges and received a goodwill discount. The modified agreement includes a price adjustment for the van cutaway. The decreased purchase price reflects a reduction in the required sales tax.

# Updated purchase agreement for Unit-23 (dated October 29, 2024):

Purchase Price (modified purchase agreement 10-29-24)	\$207,000
CCHD 501-C3Trust: Community Donations	(45,000)
Cambria Community Council Grant (final grant award)	(20,000)
Finance Remaining Balance	\$142,000

**DESCRIPTION:** Ambulance Fleet Review

# **RECOMMENDATION**

Review surplus and retention options for District-owned ambulance units.

# FISCAL IMPACT

Proposed \$20,000 decrease to 2024-2025 budgeted revenues.

# DISCUSSION

In preparation for the delivery of Unit-23 in the first quarter of 2025, below is a review of the District's current ambulance fleet including the age of the unit, mileage, and surplus fleet options.

 The District currently has four in-service ambulances. Unit-22 and Unit-18 are scheduled as "first out" in response to emergency calls. Unit-21 is a 4x4 ambulance used for remote area emergency calls. Unit-20 is utilized as a backup when a "first out" unit is out of service. Upon receipt, Unit-23 will be placed into service as a "first out" ambulance.

Year Purchased	Unit Assignment	Description	Vehicle Year	Vehicle age as of 11.5.24	Odometer as of 11.01.24
10/31/2016	Unit 18	Chevrolet Ambulance	2016	8	232,517
8/12/2019	Unit 20	2019 Demers Ford Ambulance	2019	5.5	105,049
1/11/2021	Unit 21	2005 Ford F350 Ambulance Type I	2005	19	44,133
7/1/2023	Unit 22	2023 Ford E350 Ambulance CCL 150 Type III	2023	1	30,954

2. The 2024-2025 budget reflects an income of \$20,000 for the surplus sale of one ambulance. Ambulance fleet options are provided below for Board discussion.

#### **Option 1: Surplus Unit-18**

**Pros:** Eliminates annual insurance costs of \$1,362 and excessive repair costs due to the high mileage of the vehicle.

**Cons:** Due to high mileage, the surplus sale of the unit may reduce the budgeted revenue of \$20,000.

#### **Option 2: Retain Unit-18 as a backup unit**

**Pros:** Crew members prefer the specifications of this unit's box. Schedule the next purchase agreement to include a remount of Unit-18's box onto a new truck chassis. The cost of a new truck chassis is significantly lower than the cost of acquiring a new ambulance unit.

**Cons:** The electronics on the 2016 box may not be compatible with a 2026 truck chassis.

# **Option 3: Surplus Unit-20**

**Pros:** Due to long-distance patient transports and limited interior space, emergency crew members prefer the box specifications type III to this type I ambulance (van style). This style of ambulance is conducive to short-distance patient transports. Proceeds from the surplus sale of Unit-20 may yield a higher net return. Eliminates annual insurance costs of \$1,362.

**Cons:** Unit-20 has less mileage than Unit-18 and may have a longer useful life as a backup vehicle.

#### **CONCLUSION**

With the responsibility of providing the highest quality emergency response to our community, the District understands that fleet management is key to our success. Fleet management involves monitoring and maintaining vehicle health and making decisions about proper asset management and vehicle acquisitions/disposals.
